**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
FWS	Izembek NWR	Building & Structures	Modernize Facilities and Repair Seismic Issues, Phase (I) - Design	Phase I design activities for the replacement of water and sewer lines and seismic and architectural building rehabilitations.	AK
BLM	Anchorage District	Transportation	Campbell Creek Science Center Access Repairs	Rebuild the parking lot to eliminate pedestrian - vehicle conflicts.	AK
BLM	Anchorage District	Transportation	Sourdough Campground Bridge Replacement	Replace aged road bridge that is deteriorating.	AK
BLM	Fairbanks District	Building & Structures	Fort Egbert National Historic Landmark Repairs	Remove asbestos and lead materials, and repaint exterior of 5 buildings.	AK
BLM	Anchorage District	Demolition	Glennallen Log Bunkhouse	Dispose of unneeded building in poor and unrepairable condition.	AK
BLM	Anchorage District	Transportation	Campbell Tract Recreation Access Repair	Realign public trail to provide safer public access.	AK
NPS	Glacier Bay National Park & Preserve	Building & Structures	Replace Concessioner Housing Units	This project will address deferred maintenance, safety, and accessibility issues in the Glacier Bay Lodge concessions housing. It will allow the Lodge rooms to be returned to public-use, increase the economic viability of the Lodge, and relieve pressure on existing park housing.	AK
FWS	Dale Bumpers White River NWR	Transportation	Modernize multiple outdoor recreational access facilities and transportation assets, Phase (I) - Design	Phase I design for the rehabilitation and replacement of boat ramps, parking lots, and Refuge roads and trails.	AR
BIE	Southwest Region	Demolition	Southwest - Education Demolition Project	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	AZ
BIE	Western Region	Demolition	Western - Education Demolition Project	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	AZ
BLM	Colorado River District	Building & Structures	Partners Point Pole Barn and Admin Building Replacement	Replacement of compromised building for code compliance and to protect staff and equipment.	AZ
BLM	Lake Havasu District	Water & Utilities	Partners Point Boat Dock and Ramp Replacement	Replace the failing Partners Point Dock and Ramp to maintain public facilities in a safe and working condition.	AZ
BLM	Lake Havasu District	Water & Utilities	Water System and Dump Station Repair Burro Creek Recreation Site	Reconstruct the Burro Creek Water System and Dump Station to meet public safety and environmental requirements.	AZ
BLM	Gila District	Transportation	Haekel Road Rehabilitation Chip Seal, FLTP (Phase 1 of 2)	Reconstruct the failing road for the safety and welfare of the traveling public.	AZ
NPS	Grand Canyon National Park	Building & Structures	Rehabilitate and Preserve Historic Powerhouse Building For Future Use	This project will address deferred maintenance on multiple park buildings and supporting infrastructure.	AZ
BIE	Navajo Region	Building & Structures	Many Farms High School - Major FI&R	Consolidates current education programs housed in multiple buildings throughout the campus into a single facility.	AZ, NM
BIE	Navajo Region	Demolition	Navajo - Education Demolition Project a	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	AZ, NM
BIE	Navajo Region	Demolition	Navajo - Education Demolition Project b	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	AZ, NM
BIE	Navajo Region	Demolition	Navajo - Education Demolition Project c	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	AZ, NM

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
FWS	Tule Lake NWR	Building & Structures	Consolidate and Modernize Public Use Facilities, Improve Waterfowl Hunting Areas and Improve Recreational Access	Demolition of excess structures and construction of a consolidated Headquarters/Visitor Center.	CA
BLM	Northern California District	Building & Structures	Punta Gorda Lighthouse Rehabilitation - (Phase 2 of 3)	Perform structural repairs to historic buildings and improve degrading trails to allow the public to safely enjoy the site.	CA
BLM	Central California District	Recreational Assets	Pleasant Valley Pit Campground Maintenance and Rehabilitation	Repair and replace campground features including picnic tables, fire rings, and kiosk, to address safety concerns and meet ADA accessibility requirements.	CA
BLM	California Field Offices	Building & Structures	Statewide Security System Maintenance and Repairs (Phase 1 of 2)	Perform inspection, maintenance, and repair of security systems to assure personnel safety.	CA
BLM	California Telecommunications Network	Water & Utilities	RI-CASHE - Repair Safety Deficiencies Statewide (Phase 1 of 2)	This project will repair critical telecommunications structures and equipment to provide reliable fire and law enforcement communications and protect the safety of the public and staff.	CA
BLM	Central California District	Transportation	Mendo Lake Road Maintenance and Repairs	This project will address existing road safety issues with long-term repairs to recurring failures, to maintain public access on the Mendo Lake road system.	CA
NPS	Yosemite National Park	Water & Utilities	Repair and Replace 70KV Transmission Line From Parkline to Hwy 140 Powerhouse	This project will address critical failing electrical infrastructure including high voltage transmission lines that serves multiple areas.	CA
NPS	Golden Gate National Recreation Area	Building & Structures	Rehabilitate Presidio Building 643 (PE-643) for NPS Maintenance Operations (Phase 2)	This project will rehabilitate the historic Presidio Building 643 to provide space for GOGA's Facility Maintenance operations and address safety issues such as structural upgrades and hazardous material abatement.	CA
NPS	Sequoia and Kings Canyon National Park	Water & Utilities	Lodgepole Campground Water System Rehabilitation	This project will replace the water main that services the Lodgepole campground as it is past its operational life cycle.	CA
NPS	Yosemite National Park	Water & Utilities	Rehabilitate the Bridalveil Creek Campground Water Distribution System for Park Visitors	This project will replace the existing water distribution system and storage tank at Bridalveil Creek Campground that has exceeded its useful life.	CA
NPS	Yosemite National Park	Recreational Assets	Rehabilitate the Tuolumne Meadows Campground to Enhance the Visitor Experience	This project will rehabilitate the Tuolumne campground including drive-in campsites, horse camp, backpacker's camp and a group camp. It will rehab the campground roads, replace an aged water distribution system and complete replacement of the sewer collection system, make accessibility improvements, and enhance the amenities at each campsite including a hardened parking pad, new picnic tables, fire rings, and food storage containers for bear protection.	CA
NPS	Yosemite National Park	Recreational Assets	Rehabilitate the Crane Flat Campground to Enhance the Visitor Experience	This project will rehabilitate drainage problems at the Crane Flat Campground by installing culverts that were omitted from the original design and repair roadside ditches caused by severe erosion and surface water flow.	CA
NPS	Yosemite National Park	Transportation	Glacier Pt. Rd Rehabilitation	This project will rehabilitate aging and deteriorated pavement, failed drainage structures, failed pullouts and parking areas on Glacier Point Road, between Badger Pass and Glacier Point	CA

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Colorado Road Network	Transportation	Colorado Road Repair Deferred Maintenance (Phase 1 of 2)	Provide sustainable repairs on priority roads, by correcting safety and long-term maintenance issues to improve visitor access.	CO
BLM	Colorado Buildings	Building & Structures	Colorado Facilities Repair Deferred Maintenance	Perform high priority facility repairs to address structural, operational, infrastructure and security deficiencies to improve conditions for employees and visitors.	CO
BLM	Colorado Building Utilities	Water & Utilities	Colorado Environmental Health and Safety Repair (Phase 1 of 3)	Correct safety, health and the environment deficiencies identified various public and administrative facilities.	CO
BLM	Colorado Recreation Sites	Recreational Assets	Colorado Recreation Site Repair (Phase 1 of 3)	Correct deficient infrastructure at high-use recreation sites to improve safety, access and visitor experience.	CO
BLM	Colorado Telecommunications	Water & Utilities	Colorado Radio Towers Repairs (Phase 2 of 3)	Correct structural deficiencies at remote communications towers to assure ongoing support of BLM and partner agency emergency services.	CO
BLM	Grand Junction Air Center	Water & Utilities	Grand Junction Air Center Repair Containment Pond	Repair leaking containment pond integral to regional wildland fire aviation operations.	CO
BLM	Rocky Mountain District	Water & Utilities	San Luis Valley Well and Water Delivery Repairs (Phase 1 of 2)	Correct deficiencies to aging wells and water delivery systems serving critical ecosystems, providing important wildlife habitat and recreational opportunities.	CO
NPS	Rocky Mountain National Park	Water & Utilities	Rehabilitate Headquarters East Water System and Moraine Park Campground Electrical Distribution	This project will rehab the HQ East water system which includes the Moraine Park Campground (MPCG) water distribution systems and wastewater system. This project will also rehabilitate MPCG to address drainage and relocate campsites away from wetlands. The project will address accessibility issues, and improve roads, parking and campsite amenities.	CO
NPS	National Mall & Memorial Parks	Recreational Assets	Rehabilitate Pedestrian/Bicycle Path from Inlet Bridge to Virginia Ave NW (Kennedy Center Trail Reconstruction)	This project will rehabilitate the trail between Georgetown/the Kennedy Center (Virginia Ave., NW) and Inlet Bridge along the Potomac River.	DC
NPS	National Mall & Memorial Parks	Building & Structures	Complete Jefferson Memorial Exterior Marble Restoration	The project will complete restoration of the Jefferson Memorial exterior including the marble colonnade.	DC
NPS	National Mall & Memorial Parks	Building & Structures	Rehabilitate Historic Belmont Paul House	This project will rehabilitate the Historic Belmont Paul House to improve conditions and prevent further deterioration.	DC
BLM	Jupiter Inlet Outstanding Natural Area	Demolition	Jupiter Inlet -Building Disposal	Reduce annual and deferred maintenance costs through the removal of deteriorating, unused, and excess structures within the Jupiter Inlet Lighthouse Outstanding Natural Area.	FL
BLM	Jupiter Inlet Outstanding Natural Area	Building & Structures	Jupiter Inlet Shore Stabilization	Eliminate the erosional loss of public lands at the Jupiter Inlet Lighthouse Outstanding Natural Area to reduce public safety risks, enhance recreational access, and to protect congressionally designated resources.	FL
NPS	Everglades National Park	Water & Utilities	Rehabilitate Marina Bulkheads at Flamingo	This project will repair the following bulkheads: Whitewater Bay Marina, Florida Bay Marina, Visitor Center Bulkhead, and Maintenance Basin Marina which protect cultural resources (Mission 66 buildings) and ecosystems.	FL
FWS	Camas NWR	Water & Utilities	Modernize Infrastructure to Improve Waterfowl Hunting Areas and Improve Recreational Access	Modernization of water delivery system and rehabilitation of the Auto Tour Route and public use facilities.	ID
BLM	Twin Falls District	Demolition	Shoshone Field Office Replacement	Replace Shoshone Field Office building to eliminate poor facility condition, high O&M costs and safety issues.	ID

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Boise District	Transportation	Boise District Road Repairs	Road repairs to improve public safety and provide public access to recreation, mining, grazing, and resource extraction activities within the Boise District.	ID
BLM	Idaho Falls District	Transportation	Idaho Falls District Road Repairs	Road repairs to improve public safety and provide public access to recreation, mining, grazing, and resource extraction activities within the Idaho Falls District.	ID
BLM	Twin Falls District	Transportation	Twin Falls District Road Repairs	Road repairs to improve public safety and provide public access to recreation, mining, grazing, and resource extraction activities within the Twin Falls District.	ID
BLM	National Interagency Fire Center	Building & Structures	300-Jack Wilson Headquarters Repairs & Uninterruptible Power Supply Replacement	The project will replace two aging Uninterruptible Power System (UPS) units that serve a mission-critical data center, repair failing subgrade, heating systems, and finishes, in both the building.	ID
BLM	National Interagency Fire Center	Building & Structures	405-Hangar Fire Safety System Replacement NIFC	The project will replace the outdated fire detection notification system and repair the HVAC system.	ID
BLM	National Interagency Fire Center	Water & Utilities	Campus Storm Drain Piping Replacement NIFC	The project will repair an aging storm water collection system that is inadequate to manage storm water in accordance with clean water act requirements.	ID
FWS	Crab Orchard NWR	Building & Structures	Modernize Public Use Facilities, Repair Seismic Issues and Improve Recreational Access	Replacement of water and sewer lines Refuge-wide, other infrastructure improvements, and construction of a replacement visitor center.	IL
NPS	Mammoth Cave National Park	Building & Structures	Replace Mammoth Cave Hotel Roof To Correct Deficiencies and Improve Visitor Experience	This project will replace the Mammoth Cave Hotel roof, and correct other exterior envelope deficiencies. The flat roof will be replaced with pitched roof and the interior hallways reconfigured. The new roof will eliminate severe moisture failure of existing roof.	KY
NPS	Boston National Historical Park	Building & Structures	Restore Dorchester Monument and Hardscapes	Implement structural repair and restoration of the commemorative tower at Dorchester Heights Monument, an iconic feature of Boston's cultural landscape. The work includes foundation, superstructure, exterior enclosure, roofing, interior, stairs, HVAC, Electrical and site improvements that provide access to and around the park including all flatwork, stairs, ramps, footers, retaining walls, drainage and handrails. New ramps will be installed in accordance with accessibility guidelines.	MA
NPS	Chesapeake and Ohio Canal National Historical Park	Water & Utilities	Repair Failing Dam #5 Left Abutment	This project will repair the failing left abutment of Potomac River Dam Number 5 to prevent possible loss of life, a sudden release of water, the loss of an historic structure and loss of recreation use of the impounded reservoir.	MD
NPS	Acadia National Park	Building & Structures	Replace Maintenance Facilities at McFarland Hill Headquarters	This project will address deferred maintenance on multiple park buildings and supporting infrastructure.	ME
FWS	Seney NWR	Building & Structures	Consolidate and Modernize Public Use Facilities and Improve Recreational Access	Demolition of excess structures, construction of a consolidated Administration/Visitor Center, and replacement of Auto Tour Route bridges.	MI
BLM	Eastern Montana District	Water & Utilities	Alkali Creek and Centennial Trail Creek Crossing	Replace two existing creek crossings with bridges to provide safe access to picnic areas, campground facilities and recreational trails.	MT
BLM	Western Montana District	Transportation	Axolotl Lakes Road Surfacing	Shaping and resurfacing three miles of gravel road to improve public safety and provide access for a variety of public uses.	MT

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Western Montana District	Transportation	Ruby Creek Road Chip Seal (Phase 2 of 2)	Rehabilitation of the aged asphalt Ruby Creek Recreation Area road to maintain recreational access for the public.	MT
BLM	North Central District	Water & Utilities	Grub Dam Rehabilitation	Reconstructing dam outletworks to provide a consistent source of water for habitat and wildland fire.	MT
BLM	Eastern Montana District	Transportation	Stellar Creek Road Repair	Rebuilding the roadway to repair safety issues resulting from two large culvert head-cuts that are threatening the roadway structure.	MT
BLM	North Central District	Water & Utilities	South Fork Dry Blood Creek Detention Dam Repair (Phase 1 of 2)	Reconstructing a dam to protect public safety, sustain wildlife habitat and viewing, and provide continued hunting and fishing opportunities for the public.	MT
BLM	Eastern Montana District	Transportation	Crooked Creek Road Repair Planning and Design	Improving safe travel on 6.6 miles of road damaged by washouts, culvert failures, and surface degradation.	MT
BLM	Western Montana District	Recreational Assets	Big Hole Recreation Sites Maintenance and Restoration	Improving the condition and reduce safety hazards at four day-use recreational sites by paving parking lots and improving boat ramps.	MT
BLM	Eastern Montana District	Transportation	Acton Road Gravel	Regrading and repairing the roadway to eliminate current safety concerns due to washouts, culvert failures, and deteriorating conditions.	MT
BLM	Western Montana District	Water & Utilities	Beartooth Landing Dock	This project will replace an existing boat dock that poses a safety hazard to employees during annual installation and removal.	MT
BLM	Western Montana District	Water & Utilities	Carbella Boat Ramp Repair	Replacing a boat launch on a new alignment to reduce significant sedimentation and improve access for boaters.	MT
BLM	Western Montana District	Transportation	Moose Creek Road Resurfacing	Regrading and resurfacing 3.4 miles of gravel road to eliminate surface deformations and drainage issues to improve public safety and the stability of the roadway.	MT
BLM	Eastern Montana District	Transportation	Eastern Montana Dakotas District Fog Seal	Applying a fog seal treatment on four existing asphalt paved parking lots and roads to extend the life of the pavement structures and increase public safety.	MT
BLM	Western Montana District	Water & Utilities	Monida Creek Dam #1 and #2 Repair	Repairing two deteriorating dams to improve safety, and provide a critical water source for agriculture, recreation activities, and fish and wildlife populations.	MT
NPS	Glacier National Park	Transportation	Rehabilitate Final 9.3 miles of the Going-to-the-Sun Road & Replace Bridge Over McDonald Creek	This project will accomplish two major rehabilitations. The first is the reconstruction of 9.3 miles of the Going-to-the-Sun Road from the foot of Lake McDonald to the intersection with the North Lake McDonald Road. This project will include curve widening, super-elevation on the horizontal alignment for transition zones, and addressing limited distances between curves. The second is to replace the bridge over Upper McDonald Creek that services landowner residences and a ranger station. This project will demolish the existing bridge and replace it with a 270-foot long clear span, highway rated bridge.	MT
FWS	Maintenance Action Teams at Multiple National Wildlife Refuges	Water & Utilities	National Hire of Wage Grade (WG) Professionals to stand up Maintenance Action Team (MAT) Strike Forces	Hiring and funding of WG Maintenance Action Strikeforce Teams for each Interior Region.	Multiple

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
NPS	Preservation Maintenance Action Teams at Multiple Parks	Building & Structures	GAOA Maintenance Action Team	The NPS's Historic Preservation Training Center (HPTC) and Historic Architecture, & Engineering Center (HACE) will stand up Preservation Maintenance Action Team (MAT) to achieve cost efficiencies and strengthen capacities within the HPTC and NPS workforce. This will require hiring Wage Grade (WG) and General Services Professionals to increase proactive life-cycle and deferred maintenance through HPTC Preservation MAT. HPTC project delivery averages 35- 50% below contracted construction cost. Preservation MAT will be paired and developed to focus on specific regional areas and will focus on some of the key resource maintenance needs of those areas.	Multiple
NPS	Blue Ridge Parkway	Transportation	Replace Laurel Fork Bridge	This project will replace the existing Laurel Fork Bridge on the Blue Ridge Parkway (BLR). The existing Laurel Fork Bridge is a 5-span, two-girder steel bridge with a cast-in-place concrete deck. It is 546 feet long, 28 feet wide, and was built in 1939	NC
NPS	Blue Ridge Parkway	Transportation	BLRI Reconstruction (NC)	The road and associated driving experience is the park's primary reason for designation. The project rehabilitates and reconstructs 75.5 miles of mainline parkway within North Carolina (road segments 2B-2H) as well as associated overlooks, on/off ramps and park areas.	NC
NPS	Theodore Roosevelt National Park	Transportation	SOUTH UNIT SCENIC LOOP SLIDE REPAIR	This project includes the design, compliance, and repair of South Unit Scenic Road (Route 11) in Theodore Roosevelt National Park. This project will evaluate and address multiple major roadway failure points, drainage systems, road base rebuild, and asphalt resurfacing along this corridor.	ND
BIE	Great Plains Region	Building & Structures	Cheyenne Eagle Butte - Replacement	This project replaces the current campus, which consists of 10 permanent buildings.	ND, SD, MT
BIE	Great Plains Region	Demolition	Great Plains - Education Demolition Project	This project will be a super-demo of multiple identified excess structures within the BIE school inventory.	ND, SD, MT
NPS	Gateway National Recreation Area	Water & Utilities	Replace Shoreline Stabilization Structures at Sandy Hook and Jacob Riis	This project will repair three seawalls that protect historic buildings, a major access road, a popular multi-use path, and a critical sewage lift station and associated trunk piping from storm surges and several tidal events.	NJ
NPS	Delaware Water Gap National Recreation Area	Transportation	Delaware Water Gap Loop Road	This project will repair the highest priority arterial road in the park and the only emergency route for adjacent communities.	NJ, PA
BLM	Las Cruces District	Water & Utilities	Starvation Draw Detention Dams (phase 1 of 2)	Decommissioning the five obsolete Starvation Draw Dams and begin restoring wider natural channel flow to benefit fish, wildlife and stream health.	NM
BLM	Taos District	Transportation	Wild Rivers Back Country Byway	Applying asphalt overlay on the deteriorating pavement on the access road to the Wild Rivers Recreation Area within the Rio Grande Del Norte National Monument.	NM
BLM	Albuquerque District	Water & Utilities	Pinon Dam Repairs	Performing critical repairs to the dam following damages that occurred during a record-breaking storm.	NM
BLM	Albuquerque District	Building & Structures	Socorro Nature Area Repairs	Reconstructing deteriorating facilities at the Socorro Nature Area Recreation Site and bring the site into compliance with current accessibility requirements.	NM
BLM	Las Cruces District	Water & Utilities	Apache Dam Repair	Perform maintenance and repairs to the aging dam.	NM
BLM	Las Cruces District	Transportation	Permian Trackways Road Repairs	Reconstructing the road surface and hardening arroyo crossings to improve safety and maintain access into the Prehistoric Trackways National Monument.	NM

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Las Cruces District	Transportation	Caballo-Cooke's Road Repairs	Rebuilding embankments and hardening culverts and arroyo crossings on Caballo and Cooks Roads to maintain access to recreation and telecommunications equipment.	NM
BLM	Las Cruces District	Water & Utilities	Palomas Dam #9 Repairs	Decommissioning Palomas Dam #9, which no longer supports the resource management program.	NM
BLM	Las Cruces District	Building & Structures	Lake Valley Host and Site Maintenance	Performing maintenance and repairs to improve safety for the visiting public.	NM
BLM	Las Cruces District	Water & Utilities	Cox Well and Water System	Replacing the Cox Visitor Center water well to provide clean, safe water for visiting public and reduce maintenance costs.	NM
BLM	Battle Mountain District	Demolition	Eureka Admin Site Disposals	Disposal of four buildings that are no longer in use and pose safety hazards to the public in the historic mining town of Eureka, NV.	NV
BLM	Carson City District	Water & Utilities	Indian Creek Recreation Area Repairs	Rehabilitating dilapidated assets at the popular recreation area on the east slope of the Sierra Mountains to eliminate deferred maintenance, public safety hazards, and environmental concerns.	NV
BLM	Winnemucca District	Building & Structures	Orovada Crew Quarters McDermitt Replacement	Replace a dilapidated Fire Station Quarters in McDermitt, NV with a new Fire Station Quarters in Orovada, NV.	NV
BLM	Nevada Telecommunications Network	Water & Utilities	NV Radio Infrastructure Safety Repairs	Repairing radio infrastructure across Nevada to provide a communication system that is safe and reliable to support BLM's fire suppression, law enforcement, and emergency responses.	NV
BLM	Southern Nevada District	Water & Utilities	Red Rock Fee Station Septic System Replacement - (Phase 1 of 2)	Replacing septic tank at Red Rock Canyon National Conservation Area to accommodate dramatically increased visitation to the Monument.	NV
BLM	Carson City District	Transportation	Sand Mountain Road Safety Repairs	Repairing the road to Sand Mountain, a popular OHV recreation area, to eliminate safety hazards and restore efficient access for law enforcement and emergency services.	NV
NPS	Lake Mead National Recreation Area	Water & Utilities	Relocate Callville Bay Water Intake Barge to Ensure Safe Drinking Water for Visitors & Concessioners	This project will relocate the Callville Bay water intake barge to allow for park visitor drinking water production to a Lake Mead elevation of 950' above sea level, and negate further intermediate and costly barge movements. .	NV
NPS	Lake Mead National Recreation Area	Demolition	Demolish Lake Mead Lodge Resort Complex and Restore Area to Native Condition	This project would demolish four buildings and all associated site features, including sidewalks, park areas, roads, and non-native plantings. The structures are an abandoned concession asset. The project will restore the area to native condition.	NV
NPS	Saratoga National Historical Park	Recreational Assets	Rehabilitate Battlefield Interpretive Experience	This project will update the worn interpretive waysides along the tour road and complement them with new field exhibits utilizing Universal Design. The project will also result in improved physical accessibility, making all routes to the waysides and site amenities accessible as well.	NY
NPS	Statue of Liberty National Monument	Building & Structures	Rehabilitate Terreplein	This project will rehabilitate the terreplein and the related levels above, as well as the vertical surfaces between the levels to protect the foundations of the Statue of Liberty and its pedestal. This will also enhance visitor access and accessibility.	NY
NPS	Statue of Liberty National Monument	Building & Structures	GAOA: Rehabilitate Exterior Systems of Main Building	This project will rehabilitate exterior components of the Main Immigration Building including exterior window finishes, exterior re-pointing, replace deteriorated clerestory windows, and replace failing skylights.	NY

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
NPS	Cuyahoga Valley National Park	Demolition	Demolish Vacant Excess Structures	This project will address public hazards, remove excess assets of the park, and reduce O&M liability by removing deteriorated structures on tracts of land, and restoring those tracts to natural conditions.	OH
FWS	Wichita Mountains Wildlife Refuge	Building & Structures	Consolidate and Modernize Public Use Facilities and Improve Recreational Access	Demolition of excess structures, infrastructure replacements, and consolidation of Refuge functions into replacement buildings.	OK
BLM	Burns District	Transportation	Warm Springs-Stinkingwater Access Road Repair	The Warm Springs-Stinkingwater project will repair 18 miles of damaged road to provide safe access public wildlife viewing and hunting, wildland firefighting operations and cattle grazing allotments.	OR
BLM	Burns District	Water & Utilities	Burns District Office Radio Tower Replacement	Replacing an aging and deteriorating radio tower to protect public safety and ensure reliable radio service for interagency fire, law enforcement, and employee communications.	OR
BLM	Coos Bay District	Transportation	Coos Bay District Road and Bridge Repairs (Phase 1 of 5)	Repairing road surfaces and drainage structures along road systems within the Coos Bay District, improving safety and decreasing the likelihood of road failure and deterioration during large storm events.	OR
BLM	Coos Bay District	Building & Structures	Loon Lake Storm Repairs (Phase 2 of 2)	Repairing essential infrastructure at Coos Bay Loon Lake Recreation Area project damaged during a severe winter storm that rendered the entire facility inoperable.	OR
BLM	Coos Bay District	Building & Structures	Repair Dean Creek Cabana	Repairing the gutter and floor of the Dean Creek Elk Viewing Area cabana, a facility with over 380k visitors in 2019.	OR
BLM	Lakeview District	Transportation	Lakeview Field Office Road Resurfacing (Phase 1 of 5)	The Lakeview Road Resurfacing project will develop aggregate sources and resurface several important road systems used extensively by ranchers, hunters, and the recreating public.	OR
BLM	Lakeview District	Transportation	Westside Road Surface Rock Replacement	The Westside Lakeview road project will address road drainage problems, and bring Kakapo Road, National Knob Mainline Road System, and the Onion Springs/Miners Creek road systems to current BLM design standards ensuring safe usage by the public and BLM employees.	OR
BLM	Lakeview District	Transportation	Eastside Road Surface Rock Replacement	The Eastside Lakeview road project will address road drainage problems and bring the Norcross Springs and Mainhaul road systems to current BLM design standards ensuring safe usage by the public and BLM employees.	OR
BLM	Medford District	Building & Structures	Grants Pass Field Office Administrative Sites Repairs	This project will repair aged infrastructure at Grants Pass Field Office administrative sites to mitigate outstanding safety issues by repairing utility infrastructure, radio infrastructure and other repairs to reduce the deferred maintenance backlog and bring the facilities up to a more serviceable condition.	OR
BLM	Prineville District	Transportation	Sunflower Creek Culvert Replacement (Phase 2 of 2)	The Prineville District Sunflower Creek culvert replacement will resolve outstanding safety issues and improve wildland fire response on South Fork John Day Road.	OR
BLM	Prineville District	Demolition	Maupin Work Site (Phase 3 of 3)	The Maupin Work Site project will demolish deteriorating existing Maupin buildings and replace them with a single structure to resolve multiple building safety issues and allow the agency to provide safe storage for federal and state law enforcement and recreation staff equipment.	OR
BLM	Prineville District	Transportation	Chimney Rock Repair and Renovation (Phase 2 of 2)	The Chimney Rock Repair and Renovation project will renovate the entire recreation site and correct potable water issues and upgrade a campsite near the accessible fishing platform which is the only site along the wild and scenic Crooked River.	OR

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Roseburg District	Building & Structures	Roseburg District Office and Security Deficiency Repairs	The Roseburg District Office and Security Deficiency Repairs project will renovate the public areas, add public restroom facilities, improve ADA accessibility, and correct physical security deficiencies to assure the employees and visiting public are safe.	OR
BLM	Burns District	Building & Structures	Burns Junction Fire Station Repair and Renovation	The Burns Junction Fire Station Repair and Renovation project will renovate the bathrooms, sleeping quarters, kitchen, and laundry facilities of the Fire Station and will modernize aging infrastructure and reduce annual maintenance costs.	OR
BLM	Spokane District	Building & Structures	NHOTIC Energy Conservation (Phase 3 of 3)	The National Historic Oregon Trail Interpretive Center project will perform HVAC improvements and insulate the Exhibit building to reduce annual maintenance costs.	OR
NPS	Independence National Historical Park, Edgar Allan Poe National Historic Site, Thaddeus Kosciuszko National Memorial	Building & Structures	Rehabilitate Mission Dependent HVAC Systems and Implement Energy Conservation Measures	This project will replace failed and inefficient HVAC systems, convert steam to natural gas heating, and provide HVAC upgrades.	PA
NPS	San Juan National Historic Site	Recreational Assets	Stabilize Cliff at San Fernando Bastion	This project will stabilize the cliff at San Fernando Bastion, which forms part of the foundation and support for the Castillo's esplanade. It corrects safety issue with falling rocks above a popular urban recreational trail.	PR
NPS	Great Smoky Mountains National Park	Transportation	Foothills Parkway Rehabilitation (Sections 8G - MP 55-MP 65 and Section 8H - MP 65 to MP 72, totaling 17 miles)	This project would be for a full depth reclamation or a complete mill and overlay (H3R) of 17 miles of a critical resource road which offers visitors a panoramic perspective of the Great Smoky Mountains National Park. (FHP Sections 8G - MP55 to MP65 and Section 8H - MP65 to MP72)	TN
NPS	Great Smoky Mountains National Park	Building & Structures	Replace Sugarlands Maintenance Facilities	This project will address deferred maintenance on multiple park buildings and supporting infrastructure.	TN
FWS	Attwater Prairie Chicken NWR	Building & Structures	Consolidate and Modernize Habitat and Public Use Facilities	Demolition of excess structures and construction of a consolidated Administration/Visitor Center.	TX
BLM	Canyon Country District	Transportation	Canyon Rims Roads, Needles Overlook Road, westernmost portion, maintenance and repairs, Phase 2	Modernizing infrastructure, enhancing public access and improving safety by addressing the following: asphalt repaving, culvert replacement, signage and guardrail.	UT
BLM	Canyon Country District	Transportation	Monticello Trail, Mill Canyon Track site boardwalk, maintenance	Repairing 34-miles of trails and related drainage and a section of boardwalk to protect historic trails and cultural resources. These improvements will also enhance public experience and recreation access.	UT
BLM	Canyon Country District	Recreational Assets	Moab Recreation site Repair (Phase 1 of 2)	Modernizing infrastructure, addressing safety issues and improving public recreation site access by correcting flood damage and related drainage issues.	UT
BLM	Canyon Country District	Recreational Assets	Hamburger Rock Campground repairs, (Phase 2 of 2)	Modernizing infrastructure to address safety issues and improve public recreation site access by correcting safety and drainage issues by: road realignment and site relocation, regrading, channelization, and culverts.	UT
BLM	Color Country District	Transportation	Hanging Rock Recreation Site and Road, maintenance and repairs	Modernize infrastructure to address safety issues and increase public recreation site access by fixing entrance/exit site distances at Highway 21. Project will also repair site road and camp units.	UT

**U.S. DEPARTMENT OF THE INTERIOR**  
**GREAT AMERICAN OUTDOORS ACT (GAOA) FY21 PROJECT LIST**  
**NATIONAL PARKS AND PUBLIC LAND LEGACY RESTORATION FUND**

Bureau	Station or Unit Name	Project	Activity Title	Short Description	State(s)
BLM	Color Country District	Recreational Assets	St. George Field Office, Red Reef Shelter maintenance and repairs	Protecting cultural resources by addressing deferred maintenance on benches, directional signs and fencing to redirect traffic to approved viewing areas.	UT
BLM	Color Country District	Recreational Assets	Color Country Recreation Sites, maintenance and repairs, Phase 2	Reducing deferred maintenance while enhancing public experience, improving recreation access and addressing public safety by: repairing parking, handrails, fencing and drainage for both recreation sites and campgrounds throughout the district.	UT
BLM	Color Country District	Transportation	Color Country Road Project maintenance and repairs	Repairing road drainage and addressing safety issues including deep ruts to improve recreation access to fishing, hunting, and camping at three roads within the district.	UT
BLM	Green River District	Transportation	Swasey's campground, parking expansion, boat ramp repair	Repairing and stabilizing a boat ramp to address low-water safety issues, while also rehabilitating gravel access and parking. The project will modernize infrastructure, create safer public access to recreation and reduce deferred maintenance.	UT
BLM	Western Desert District	Building & Structures	Rosebud administrative site storage structure replacement	Modernizing infrastructure and improve safety and health by replacing an unsafe existing warehouse with a modernized pre-fabricated steel building on a concrete slab.	UT
BLM	Western Desert District	Building & Structures	Little Sahara rec site maintenance, (Phase 1 of 3)	Improving the public experience and ADA accessibility by replacing 40-year old restrooms that lack serving capacity for the extensive public use they receive.	UT
NPS	Shenandoah National Park	Demolition	Remove Obsolete Structures and Restore Areas to Native Condition	This project will dispose of unneeded assets and associated features. All areas will be restored to natural conditions.	VA
NPS	George Washington Memorial Parkway	Transportation	GWMP North Section Rehabilitation	The project will reconstruct 7.6 miles of the George Washington Memorial Parkway between Spout Run and I-495.	VA
NPS	Shenandoah National Park	Transportation	Pavement Preservation Along 54 miles of Skyline Drive and 19 overlooks associated with Skyline Drive.	This project will ensure pavement preservation along Skyline Drive.	VA
NPS	Colonial National Historical Park	Water & Utilities	Reconstruct York River Shoreline	This project will repair and stabilize 5.3 miles of damaged York River shoreline in order to protect the Colonial Parkway from pavement failure and loss of archeological sites.	VA
BLM	Spokane District	Transportation	Umtanum Bridge Repairs (Phase 3 of 3)	The Umtanum Bridge project will replace the safety guardrails and compromised timber bridge decking on the historic and critical bridge, which provides the only means to cross the river to access BLM and other extensive public lands on the west side of the river.	WA
BLM	Spokane District	Building & Structures	Spokane District Historic Building Stabilization (Phase 1 of 2)	The Spokane District Historic Building Stabilization project will repair and replace the existing structural elements at three historic buildings to ensure a safe environment for the visiting public and will be completed while maintaining the historical characteristics of each site.	WA
